ATLANTA, GA.

THESDAY EVENING, OCTOBER &

THE PENSSYLVANIA CAMPAIGS. Wa give no important chapter in the history complete detail of all the operations connected with the movement; with those the public is already familiar through the ordinary sources of information. The document is confined principally to a statement of the purposes that actuated, and the plan that controlled, the authorities, from the commencement of the march of the army from the Rappahannock until its re-

turn to the south side of the Potomac. As the Richmond Whig remarks, this statement of place and occurrences involves the adterritory did not accomplish all that was hoped of it, but it at the same time effectually dispower of all the Yankes awagger about victory, and makes it evident that there was no time partial bistorian will allow them.

THE THANS-MISSISSIPPL

By advices from Yankos acuross, we have information to the effect that Gen. PRICE has been compelled to evacuate Little Rock, in the presence of a superior force, and less retreated toward Red river, and was at latest advices in Hempstead county, Arksusas. This looks very like a Yank e invention, and looks improbable on its face, but if it should be true, we have every confidence that the evacuation and retreat was a matter of temporary nacessity, and that Gen. Parce will turn up at the right time, and known. willbe more than an indemnifying blow, when it

is least expected. Gen. Magnumun's affair at Sabine pass male tains his reputation at its standard point, and ahows well by the side of the brilliant victories of Bothel and Galvestan. The capture of two * fine gunboats, fifteen beavy gues, and over two hundred prisoners, with a less to the enemy, in killed and wounded, of one hundred and fifty, sition with but little less on our part, if the 2d Tennessee without the loss of a man in killed or wounded, or the injury of a gun on his own part, may be set down as one of the most brilliant comps of

MEMPAIS INTELLIGENCE.

A proposition is now being argod in Mamphis to improve Main street by laying the Nicholson decision has been arrived at, although the subjeet has been before the council at two or three defray the current expenses of the city government. It may be that the project will pass the council, as a select committee has reported in throne by the Austrian Archinks Maximillian." tabled, where it is boned it will sumain until more prosperous days down upon the city. Al deresa Vellentine and Morgan appear to have

taken the lead in apposition to the measure. It was recently stated in council, and not contradicted, that two-thirds of the property of Main alrest, in Memphis, was now in the hands of the Government, having either been seized for hospital or storage purposes, or confiscated ontright. A great deal is also in the same situation in other portions of the city. As all this is exempt from taxation, the burden of taxation falls heavily upon the few who hold real estate, The benefit of ownership is an equireral one

just now, but a day of settlement will come. The public schools are reported in a flourish ing condition. Over one thousand children are reported in daily attendance, and more schools wate talked of.

"A gentleman, who holds considerable rea estate," informs the Bulletin that rents are now higher than ever before known in the city. He "has an ax to grind," may be, and probably is the reason he gives currency to the statement. Recently an order was issued that all permits

LOOK TO THE SITUATION. The news from all quarters leads us to believe that the Federal Government is fully alive to

esistance. The dispatch from Richmond denying the report that MEADE has sent two army urps West, is not trun-at least we have reason believe it is not so, as the Northern papers which we have seen are continually heralding of the war, to-day-a concise report of Gen ral | the arrival and departure of troops; but not Leu's short campaign in Pouncylvania last stating their destination. Recent events show summer. That officer does not enter into a us that they are not destined for the Mississippi

By a look at the map it will be perceived the if the Yankees are allowed to concentrate a large array at Stevenson, RRAGG will be placed in the same position that he was in when Rosecrans made the demonstration on Wills' valley; when, with a large army in front of him, chating to re cover the disaster of the previous fight, and t fresh army on his left flank, with the army t BURNSIDE who has probably received large reinforcements from the tories of East Tennessee mission that the expedition into the enemy's on his right, another retrograde movement may scome necessary, unless steps are taken t ounteract the movements of the enemy.

There is no time to be lost. We must prepar not only to meet the additional strength, that is when the Confedera's army was not full master to be hurled against us, but also to drive it of its own movements. The Yankee army at back. We must have East Tonnessee, at least Gettysburg, after being beaten back two days. not only to open up our lines of communics escaped a rent only by advantage of position. Cincinnati: An immensa Democratic mass meeting wa held in Carthage, to-day, to bear a great speech from Voorbees, of Indiana. To-night an equally groat meeting was held in Fifth street market At Lobauon, vesterday, as a Demogratic poconsion was maving through the streets. Repub licums were insolent and threw stones. The Demourance railied, and one Republican was shot dead. The excitement in Labacon is very great and further bloodshad is anticipated. At Deerfield, to-day, a Republican named Thumb was shot dead by a Democrat named

THE EXPADITION TO MORROZ-By the Natches Courier we get nome information relative to Stevenson's raid to Monroe, Louisland

Logan's division was under command of Brig. Gen. Stevenson. The infantry was preceded by two battallous of cavalry, which was kep besy all the way to Monroe by a small force of our cavalry, under Gon. Chalmers, of Texas Almost everything combustible on the route burned. As usual houses were pillaged. and their contonis destrayed or carried away Yankees were highly pleased with Eden-like beauty of Monroe, but would not delic remaining there. After stepping a very short time, creating a patio and robbing the ople, the expedition started back for Vicks-Monroe is represented as a Union town by the Yankess, who declars the people against him fact August, when it was assertained that the Yar to return to their old faith.
